PARTNERSHIP BUILT ON TRUST

Since 2004, FocusNet Technology has been providing exceptional I.T. services for the medical industry across Australia. With a pro-active approach to technology, we are helping practices by empowering productivity, security and compliance with innovative end-to-end I.T. solutions. Backed by a highly skilled team, combined with a dedication to remaining on the pulse of new technological developments ensures a partnership with FocusNet Technology is a winning one.

Andrew Barbara
Managing Director

OUR MISSION

To provide outstanding, qualitative, timely and cost-effective outcomes-based I.T. solutions to our clients. We build loyalty, job security and profitability for our staff while ensuring the ongoing sustainability of our business.

PROFILE & SERVICES

FocusNet Technology has the unique ability to service clients of any size in any industry. Our team of highly trained, dedicated staff ensure that our client's needs are met on time and within budget. As part of our end-to-end technology solutions, our services fall under four main branches seen below.

MANAGED I.T.

Our Managed I.T. services are designed to give you peace of mind. We provide a partnership based on trust, technology and business growth. We take care of your I.T. so you can focus on running your medical practice.

BUSINESS CLOUD

We provide cloud infrastructure for businesses across multiple industries. Our innovative and leading-edge cloud-based system is owned and operated by FocusNet Technology and based in Australia. Our cloud service offering outshines our competition for ease of use, security and return on investment.

PREMIUM TECHNOLOGY

We offer premium end-to-end software and hardware solutions to our clients. Our strategic alliances with leading industry vendors allow us to deliver the best solutions anywhere. We are proud to boast about the vast benefits that our customers are experiencing because of the premium tailored solutions we have worked hard to offer.

INDUSTRY SOLUTIONS

We understand behind every great business is great people. We desire to forge engaging partnerships with industry leaders, providing bespoke technological solutions to answer specific needs. This approach allows our clients to remain dynamic and flexible in a fast-changing marketplace.

I.T. THAT WORKS

FocusNet Technology's Managed I.T. solution provides a partnership based on trust, technology and business growth. Our customer-focused team is dedicated to working with you to ensure your technology needs are accomplished smoothly, efficiently and consistently.

A Managed I.T. service allows clients to achieve their business goals as FocusNet Technology becomes a trusted adviser, aligning your technology with your business to your specific requirements.

FocusNet Technology's services are intended to provide peace of mind, taking care of all your I.T. needs so that you can focus on running your business.

medicloud™

- **Australian Owned & Operated**
- **High Speed Access Anywhere, Anytime**
- **Friendly Responsive Staff**
- **Premium Technology Systems**
- **Tailored To Meet Business Needs**
- **Monthly Fixed Price Service**

The healthcare sector requires a specialised and dedicated service when it comes to servicing their technological systems. Many specialised systems require highly-skilled I.T. professionals to service this unique industry. FocusNet Technology understands that for medical practitioners, it's critical to provide the best patient care possible in order to achieve optimal results for their patients.

MediCloud is the premium medical technology solution designed to improve performance, reduce cost and eliminate risk for medical practices. Medicloud streamlines the way your way practice operates, allowing staff from different locations to seamlessly interconnect and work together across common software and databases.

With a pay per user model, Medicloud provides transparent budget forecasting and will grow and flex with your practice instantaneously. This increased agility allows your practice to capitalise on important opportunities and enhance competitive advantage.

Medicloud provides enterprise level solutions fortified by premium hardware and software to deliver reliability, security and performance across our national network.

Our cloud solution integrates seamlessly with multiple devices and most existing clinical software and applications, making it perfect for practices looking to replace aging infrastructure.

As part of our commitment to customer service, all Medicloud migrations undertake a week of testing prior to going live. Testing before deployment allows our clients to immediately enjoy all the benefits of cloud while they carry on business as usual.

Medicloud supports all results systems and is fully compliant with eHealth. Many of our clients have found accreditation simpler and easier once on Medicloud.
